

Explorers.

Year 1 Parent narrative - Summer Term

I am very excited to tell you that our next topic is 'Explorers'.

We will be learning new skills in....

Design and technology

For design and technology we will be focusing on textiles. We will practice our stitching techniques and design and make our own sock alien. We will attach different embellishments to add the features to our aliens.

P.E

During our P.E sessions we will be learning and developing skills to help us play tennis.

Geography

In geography we will be thinking like explorers. We will use a map to find treasure, and create our very own maps with a key. We will be learning about compass directions and practice using a compass.

PSHE

Throughout our PSHE lessons this half term we will be looking at how families can be different. We will also think about what makes a good friend and how we are a good friend.

History

In history we will be learning about a variety of famous explorers, including: Neil Armstrong, Valentina Tereshkova and Emilia Earheart. We will research where they explored and what they found.

Science

We will begin our science learning by learning about animals. We will look at naming a variety of different animals and will explore how different animals can be grouped. Our science learning will then move onto Earth and Space. We will compare the sizes of the Earth, sun and moon and learn to ask scientific questions.

Thank you for your continued support. If you have any questions please ask! Miss Webb and Mrs Davis.
