

The Ashwood Press

Welcome to The Ashwood Press, our school newspaper – written by the children of Rawmarsh Ashwood.
We hope you enjoy reading all about what we have been up to recently.

FS1

In Foundation 1, we have been learning about creepy crawly bugs like snails and spiders.

We are going to go to the farm to celebrate our wonderful learning. We've been learning about different animals; cows, sheep and horses. We are really looking forward to seeing the animals especially the cows.

FS2

Year 2

In Year 2, we have been working hard for our SATs tests. They were OK - we tried so hard and feel proud of ourselves. In Art, we have been doing portraits of ourselves in pencil. We used a mirror to help us draw them. In Science, we have been learning about Light. It was really exciting when we created circuits and made the bulb light up!

We have been really busy in Year 1. We've been talking about Sir David Attenborough and how he looks after animals. In English, we have been looking at a new text called Izzy Gizmo and it is really exciting. We are excited to find out what happens next. In PE, we have been getting ready to dance with the Royal Opera House.

Year 1

Year 4

Last half term, we loved it when we did the DT project and made boats with a propeller that actually worked! We also loved it when it was French Day and we got to do tennis, eat French food and draw the Eiffel Tower. Some children from our class went to the library for the King for a Day competition. There was a buffet, activities and a treasure hunt which was amazing!

We think Rawmarsh Ashwood is a very good place to learn because of the amazing teachers and the subjects we learn like English, Maths and Art. In English, we've been writing a letter to Rishi Sunak to ask if the school week can be 4 days long. In History, we've learning about Ancient Greece. In Science, we've been learning about how sound travels. It has been so much fun!

Year 3

Year 6

In our class, we have been doing science and had STEM university people come in and explain about the world and environment. We also did an experiment with balloons, yeast and sugar. In geography, we learned about natural disasters and how hurricanes have an eye that's the calmest part of it. One day, we did First Aid and we learned about what to do when someone is dying and how we can help them. A couple weeks ago, our class went to Scarborough and we went bowling and had ice cream, it was a blast!

In class, we have been learning about the Room 13 in reading. We did a newspaper report in English. We have been doing long multiplication and short division. We are learning about L.S.Lowry and perspective in art. We looked at the industrial revolution in history and it was really interesting. In Geography, we have been learning about South America and how climate change can affect the rainforests.

Year 5

The Ashwood Press

Pupil Voice

I really enjoyed my time in Scarborough because I got to see all my friends, eat fish and chips and go on the beach.

- Ellie Y6

I am enjoying writing a letter to Rishi Sunak because I have never met him before. I'm his biggest fan and I really hope he writes back to me and my class. - Oliver Y3

I enjoyed my colour run that I did with my class because I love raising money for charities like Bluebell Wood. - Eliza Y2

My favourite lesson is maths because I get to use lots of different equipment. - Chloe Y1

I am enjoying writing a narrative about Room 13 in English because I love writing stories. - Archie Y5

I enjoy reading in class. Miss Woodcock reads stories to us at home time. - Isabelle FS2

I am enjoying Science lessons because we get to do experiments and fun learning. - Faris Y4
